

This is NOT your exhibit registration for the fair.

This is the Project Categories you choose to participate in on your annual 4-H Online profile each year. With that said though, you do need to have the Project Category selected for any exhibit you will be exhibiting at the Fair prior to submitting your registration on FairEntry.

For the FULL 2022-2023 4-H Project Guide please visit:

STATIC & LIVESTOCK EXHIBITORS New 4-H Online Project Categories

Project Categories on 4-H Online have been updated! These changes have been made so that Project Categories are universal throughout the County, State, & National 4-H levels.

Each family is **required** to go into your 4-H Online account and add/confirm that they have the appropriate Project Categories selected for project they may participate in throughout the year.

*** There is no penalty for selecting a Project Category and not participating within it.*

Even if you already signed up on 4-H Online earlier you need to go back and check as some classes changed and may have been deleted. Please check ALL project areas.

These new updates have caused some Project Categories to not roll-over from previous years, like they have in the past. So, it is very important that everyone checks this. Some Project Categories have been broken out into their own category or others grouped together. Creative Arts is a project category that is the most popular and is now broke out into more specific categories.

Please see the attached Project Selection Guide for assistance to determine which classes you should have selected and the process to add or change projects.

Please complete this process by the following dates:

March 1 – Cattle - Beef Project

May 1 – All Static & Other Livestock/Horse Projects

Please see the 2022-2023 4-H Online Project Category Quick Guide on back of this page to view Project Categories available:

CLOVERBUDS (4-H ages 5-7 as of 9/1/2022)

Static Exhibits (Non-Livestock Related Projects)

ONLY select **CLOVERBUD** project to cover all your non-livestock exhibits

Livestock (Cattle-Beef, Goat-Dairy, etc.)/Horse Projects

Select all species that apply
