Name: _____

Birth Date: ____/____/____ Age (as of last Sept. 1): _____

Hometown: _____ Years in project: _____ Years in 4-H: _____

Clothing Project Enrolled in: _____

- One of the main objectives of this activity is to select a purchased garment or garments that can be used effectively in a wardrobe. The clothing item(s) may be purchased at a retail store, second-hand store or garage sale. Purchasing new shoes or accessories is not necessary.
- Evaluate the cost of the garment in relation to the number of times you will wear it. Consider how often and for what occasions your garment(s) will be worn. Divide the number of times it will be worn into its cost to determine the cost per wear.
- This exhibit must include a color photo or photos of you wearing the purchased garment you selected for this activity and the other clothing items and accessories selected from your wardrobe.
