A wonderful opportunity for Livestock enthusiasts!
You do not have to own a livestock to participate!

Livestock judging is a process of evaluating, selecting, placing, and learning the various livestock species—beef cattle, sheep, and swine. Judging is the foundation of any 4-H livestock project. Feeding, exercising, grooming, and showing the animal are all important aspects of your 4-H project; however, none may be as exciting as selecting your project animal. Selection of project animals is actually judging livestock, comparing the merits of one animal against the merits of other potential project animals. This selection process is just one of many applications of livestock evaluation and judging.
